MICHIGAN COMMUNITY PROFILES FROM THE 1980 CENSUS

VOLUME I: STATE AND COUNTIES

JUNE 1983

Preparation of this document was financed in part through a Type II, Category 2, Fair Housing Assistance Programs project contract (HA10381) funded by the U.S. Department of Housing and Urban Development.

RESEARCH AND PLANNING BUREAU
MICHIGAN DEPARTMENT OF CIVIL RIGHTS
1200 SIXTH STREET
DETROIT, MICHIGAN 48226

Research Report 83-4

PREFACE

This report was prepared with partial funding provided by the U.S. Department of Housing and Urban Development under Fair Housing and Equal Opportunity contract HA 10381.

There were two objectives for the full Michigan Expanded and Updated Minority Data Base project:

1. To update and expand profiles on the conditions of minorities in selected communities in Michigan, and to share this with other groups; and

2. To develop a series of computer programs that would allow other civil rights and human relations groups to generate similar types of reports inexpensively and quickly.

The report demonstrates the outputs from seven different computer programs that display state, county and city data comparisons by race from the 1980 U.S. Census of Population and Housing Summary Tape File 3A. These programs produce detail for population, age structure, household structure, employment, unemployment, income, poverty status, home ownership and rentals, age of housing, access to private transportation, level of crowding and educational enrollment and attainment. There are three population formats (four races breakdown, Asian and Pacific Islander detail, and Hispanic detail) and four socioeconomic formats (housing, education, age and household structure, and employment and income). Five tables have been prepared for each of Michigan's 83 counties and for 95 communities where at least 400 minorities reside. These profiles show socioeconomic differences by race. There are also ten coded county maps that show per cent and numbers for Blacks, Hispanics, Asian and Pacific Islanders, Native Americans, and total minorities.

The population tables and profiles A, B and C are drawn from the 100% count. The same is also true for the maps. These tables and maps represent population levels as reported to the U.S. Bureau of the Census in April of 1980. The figure "Total Minority" is usually smaller than the sum of the minority subgroups. The reason for this is to avoid double counting of Hispanics, who may be of any racial group. Hispanics who indicated a race as other than white were not added into the total minority figure because the race they had indicated was already counted.

Profiles D, E, F and G for each community or county are based upon sample data inflated by the U.S. Bureau of the Census to represent the full area population. When a zero is present in the data column, it may represent the suppression of data rather than the absence of a condition. Care should be taken in interpreting this data because of the suppression factor and because the data is based upon a sample of the population.

The computer programs to run this report were written by Jeffrey Jenks, Director of Research, using the STATPAK software package developed by the DUALabs Corporation and run at Wayne State University in Detroit. Helpful programming suggestions were made by Jodi Moore at Wayne's Computing Services Center and by Bill Simmons, Assistant Director of the Michigan Metropolitan Information Center. All typing and the preparation of the maps was done by Mrs. Judith Brownlee, the bureau secretary.

This report would not have been produced without the encouragement and support of the late Gordon Hanna, who directed the Research and Planning Bureau for eleven years until his retirement. It was stimulated by Dr. Marilynn Steele at the

Charles Stewart Mott Foundation, who in the mid-1970s made a grant to the department to document the needs of minority residents in Michigan.

There is a separate glossary of terms which will be made available to readers when the report is distributed. The glossary is drawn from the report Census of Population and Housing, 1980: Summary Tape File 3 Technical Documentation, prepared by the Data User Services Division of the Bureau of the Census in 1982. Limitations of the data set are also discussed in that report. A full description of the project may be found in "Using 1980 Census Data to Identify Civil Rights Problems," The Journal of Intergroup Relations, Vol. XI, No. 2, Spring 1983.
